

Charging & Remissions Policy

Schools are not allowed to charge for arranged activities such as educational visits, theatre trips and so on. Only voluntary contributions may be sought. The Law requires that such activities should be open to all pupils involved without reference to any particular payment.

The Governors encourage and support the staff in arranging activities which might involve additional expense and invite parents to make a voluntary contribution to fund the activity. An indication is given of the cost per child. Parents are at liberty to make any or no contribution. Parents will understand that if these voluntary contributions do not meet the cost of an event then it may not be possible to hold it.
